

OP-K-EF

The optical kit contains two EF/EFS lenses to be used on the PSP-CCD-C and PSP-CCD-M cameras. The kit also contains all appropriate filters corresponding to the paints in the PSP-K pressure sensitive paint kit. Use the following as a guide to installing the appropriate filters with their respective paints.

Filter	UniCoat PSP	Binary UniCoat PSP	UniTemp TSP	Binary FIB PSP	UniFIB PSP
530FG05-50		X		X	
550FG05-50			X		
450FH90-50	X	X	X	X	X
610FG05-50	X				X

Two step-down rings are included in each optical kit which adapts the EF/EFS lens to the 52-mm filter ring which houses the filter itself. Filters with a reflective coating should be mounted with the reflective side towards the painted surface. The 450FH90-50 is a reflective filter which blocks specular reflections from contacting the filter glass. Use the 450FH90-50 in conjunction with all filters (except 530FG05-50 which is coated with the same reflective surface) and paints and mount in a separate filter ring in front of the filter glass. EF/EFS lenses can be used with the lens controller, LC-2 (using the included LC-2A EF-c lens adapter) with no modification.

Part	Quantity
Filter Ring	4
Step-Down Ring	2
50-mm f/1.4 Lens	1
28-mm f/1.8 Lens	1
LC-2 Lens Controller	1

All components contained in OP-K-EF are EAR99.
