

## Canon® EF Optical Kit

(Product ID: OP-K-EF)

The Canon® EF optical kit contains two Canon® EF lenses to be used on the PSP-CCD-C and PSP-CCD-M cameras. The kit also contains all appropriate filters corresponding to the paints in the PSP-K pressure sensitive paint kit. Use the following as a guide to installing the appropriate filters with their respective paints:

Filter	UniCoat PSP	Binary UniCoat PSP	UniTemp TSP	CCTR TSP	BinaryFIB™ PSP	UniFIB® PSP	TurboFIB PSP	Porous, Fast PSP
<b>530FG05-50</b>		X			X			
<b>550FG05-50</b>			X	X				
<b>450FH90-50</b>	X	X	X	X		X	X	X
<b>610FG05-50</b>	X					X	X	X

Two 58-52 mm step-down rings are included in each optical kit which adapts the Canon® EF lens filter threads to the 52-mm filter ring which houses the filter itself. Filters with a reflective coating should be mounted with the reflective side towards the painted surface. The 450FH90-50 is a reflective filter which blocks specular reflections from contacting the filter glass. Use the 450FH90-50 in conjunction with all filters (except 530FG05-50 which is already coated with the same reflective surface) and paints and mount in a separate filter ring in front of the filter glass as shown in the diagram above. Canon®, Sigma® and Tamron® EF/EF-S lenses can be used with the lens controller, LC-2 (using the included LC-2A-C or LC-2A-M42 lens adapter) with no modification.

Part	Quantity
<b>Filter Ring</b>	4
<b>Step-Down Ring</b>	2
<b>50-mm f/1.4 Lens</b>	1
<b>28-mm f/1.8 Lens</b>	1
<b>LC-2 Lens Controller</b>	1

All components contained in OP-K-EF are EAR99.
